

Automated Controls

Project Management Intern – Automated Controls, Redmond, WA

Posting #: H20-001

Automated Controls is a leader in the Pacific Northwest for open-protocol and custom developed Building Automation and Industrial Control systems. We thrive in a casual but dynamic work environment where employees explore the possibilities above and beyond a job description. We are seeking a project management intern for summer 2020 to work with our Industrial controls team.

This position is a 3-month paid internship with the potential for extension. Start dates are flexible based on employee's schedule.

In this position, your duties will entail:

- Estimation and preparation of proposals and review of plans and specifications
- Assisting in the coordination of projects from inception through completion.
- Assist in the generation of project scope and cost documents, including RFIs, RFCs, etc.
- Assist with the preparation of submittals, technical memoranda, reports and electronic deliverables,
- Perform systems integration field work
- Perform routine aspects of engineering requiring knowledge and application of basic engineering principles.
- May use computer-assisted engineering software and equipment to perform engineering tasks.

Preferred Qualifications

- Strong written and oral communication skills
- Experience with the Microsoft Office suite of products including Outlook, Word and Excel
- Experience with PDF editing software.
- Ideal candidates should be pursuing, or completing, a Bachelor's degree in Electrical Engineering, Mechanical Engineering, Construction Management, or related fields
