

## Automated Controls

### Project Integration Intern – Automated Controls, Redmond, WA

Posting #: H20-003

Automated Controls is a leader in the Pacific Northwest for open-protocol and custom developed Building Automation and Industrial Control systems. We thrive in a casual but dynamic work environment where employees explore the possibilities above and beyond a job description. We are seeking a project integration intern for summer 2019 to work with our Industrial controls team.

This position is a 3-month paid internship with the potential for extension. Start dates are flexible based on employee's schedule.

In this position, your duties will entail:

- Mechanical and electrical design and review assistance
- Control system design and review assistance
- DDC, PLC, HMI/SCADA, and database programming
- Field activities including installation supervision, field testing, and site investigations
- Check performance and conformity with plans and specifications through field inspection and testing
- Assist with the preparation of technical memoranda, reports and electronic deliverables

#### Preferred Qualifications

- Strong written and oral communication skills
- Completed coursework in control systems and control systems programming
- Experience with the Microsoft Office suite of products including Outlook, Word and Excel
- Experience with PDF editing software.
- Ideal candidates should be pursuing, or completing, a Bachelor's degree in Electrical Engineering, Mechanical Engineering, Robotics or related fields
