

## Automated Controls

### Service Technician- Automated Controls, Redmond, WA

Posting#:H20-008

Automated Controls is a leader in the Pacific Northwest for open-protocol and custom developed Building Automation and Industrial Control systems. We thrive in a casual but dynamic work environment where employees explore the possibilities above and beyond a job description. We are seeking an experienced service technician to work with our Building Automation team.

In this position, your duties will entail:

- Extensive work with a diverse set of DDC building automation systems
- Fulfill warranty service and preventative maintenance work orders
- Diagnose and complete emergent service repairs, upgrades, adjustments and calibrations
- Respond to customer service calls (emergency/after hours, on-site, or on-line)
- Identify opportunities for system improvements, enhancements and upgrades
- Coordinate and collaborate with clients, internal/external, and subcontractors
- Deliver technical support and training to end users
- Support programming, installation, start-up, and commissioning of small scale DDC automation retrofits

#### Preferred Qualifications

- Strong written and oral communication skills
- Strong mechanical and electrical troubleshooting skills
- Ability to work independently and unsupervised
- 3+ years experience in HVAC/DDC controls service including programming
- Exceptional candidates will have demonstrated experience with Johnson Controls Metasys suite and legacy products (HVACPro, DX, Companion and/or NCM's)
- Demonstrated knowledge of BACnet, Lonworks, and related communication protocols

#### Benefits

- Salary DOE
- Paid Time Off
- 401(k) and Profit Sharing
- Medical, Dental, Vision
- Company Vehicle
- Monthly Company Events
